👤 Profile

Dedicated and detail-oriented Frontend Web Developer with 8 months of experience in designing and implementing responsive and intuitive user interfaces for websites and web applications. Proficient in HTML, CSS, JavaScript, jQuery and Bootstrap 5 with a strong foundation in modern frontend framework such as React. Skilled in translating UI/UX designs into high-quality code, ensuring seamless user experiences across various devices and browsers. I am seeking a challenging environment where I can apply my skills competitively and contribute effectively to the growth of the company.

💼 Professional Experience

5D Solutions LLC, Web developer 09/2023 – Continue
Islamabad, Pakistan

- Experienced in designing dynamic frontends using React and their feature like Redux, React bootstrap, Routing, APIs and also proficient in frontend technologies such as Bootstrap 5, jQuery, and JavaScript.
- Implemented frontend features and components using React.js, optimizing performance and maintaining code quality standards.
- Successfully resolved complex technical challenges related to frontend development, ensuring timely project delivery and client satisfaction.

Freelancing, Web Developer 03/2023 – Continue

- As a freelance web developer specializing in frontend technologies such as React.js, Bootstrap 5, jQuery, and JavaScript, I have 8 months of hands-on experience in creating dynamic and visually appealing websites and web applications.
- My expertise lies in translating client requirements and creative designs into interactive user interfaces.
